

# Does your practice company need its own professional indemnity insurance?

Take our quiz to find out.

Does your practice:

Tick if 'Yes'

---

Provide health care treatment, advice or services via a trust, partnership or practice company?

---

Employ or contract health care professionals, including doctors?

---

Employ administrative staff to support the doctors and other professionals in the practice?

---

If yes, are your staff, including doctors, insured by different insurers? Do you know if they are insured, if they are insured correctly or anything about the scope of their cover?

---

Provide health care services via other companies or from more than one location?

---

Engage locums and other temporary staff?

---

Provide services to doctors and other health care professionals for a fee?

---

Lease its facilities to other health care professionals?

---

Own or lease machinery and/or medical equipment to provide the services (e.g. diagnostic equipment)?

---

If you have ticked 'Yes' to any of the scenarios described, your practice may be taking a significant risk if it doesn't have its own professional indemnity insurance.

MIGA offers insurance for practices involved in providing health care treatment, advice and services. It insures them against claims made against the entity which may not arise directly from the actions of doctors.
