

Manage your risk **and** reduce your insurance premiums by 10%

About the Program

MIGA's Risk Management Program offers access to a wide range of educational tools and support and a 10% premium discount on completion¹.

It is available at no charge for doctors insured with MIGA and there are a number of options for how you can complete the Program each year. If you are already enrolled to participate, we encourage you to log in to our [Risk Education platform](#) (accessed from the top menu of our website) and book your activities for the 2021/2022 year. If you are not enrolled to participate it is easy to do – just contact us by phone or email and we will arrange it for you.

Why is Risk Education important?

MIGA's Risk Education gives you access to tools and resources to support you in managing the day-to-day risks that arise in your practice.

In addition to providing you with a premium discount and the ability to claim CPD points, we believe participation will assist you to:

- Make improvements in managing risk in your practice
- Reduce your exposure or vulnerability to complaints and claims
- Avoid the stress and pressure that are an inevitable part of the claims process.

2 activities worth
5 points each
= a 10% premium
discount!

See overleaf for more details

¹ The risk management discount applies to the insurance premium at your next renewal and not to other charges such as membership fees, GST, ROCS levy or stamp duty. [Risk Management Terms and Conditions apply](#).

Risk Education in 2021/2022

Each Risk Education activity is worth 5 Points, so completing 2 activities by 31 March 2022 entitles you to a 10% premium discount¹ when you renew with MIGA in June 2022.

Activities earn CPD points with most Colleges.

10 Conferences – Plenary and Workshop

These are popular events with limited numbers, depending on the location of the event, so we encourage you to book your place early. We appreciate that things may change so we will ensure that we can convert the Conference plenary session and the Workshops to an online format, should that become necessary. Visit REO for details.

5 Online and Face-to-Face Workshops

Workshop topics are varied; with up to 12 to choose from. We will be offering special events of 2 face-to-face workshops, on a Saturday morning, in Adelaide and Perth. Online Workshops are conducted via a platform that allows you to participate from anywhere, on any internet connected laptop or tablet. All workshops have a duration of 2 hours.

5 Modules

Modules provide for self-directed learning via our online platform. These are available to all clients, with some topics being specialty specific. You will definitely find something that is relevant to you. You can work through Modules, in your own time, save and later return where you left off. These can be great when you have short pockets of time. Each Module take about 2 hours in total to complete.

5 Practice Reviews

Spend some valuable time investigating the risks in your practice with our Practice Self-Assessment and Action Plan. Submit a Practice Self-Assessment to help identify the vulnerabilities in your practice. Document and make an improvement to close the quality cycle.

5 Doctors' Health Assessment

Take the opportunity to focus on your own health using our guidelines for a Doctors' Health Assessment. See your usual GP or take the step to find a medical practitioner who specialises in caring for doctors. You won't regret it. There is no better time to take control of your own wellbeing.

5 Accredited Activities

Alternatively, you can complete an activity offered by your College or other education provider, which has been accredited by MIGA. Check the list of current activities in REO.

2 activities worth
5 points each
= a 10% premium
discount!

Need help?

We can help you with each step along the way, so if you are not sure where to start, or which options are best for you, let us know.
